> Levi the slave. He has no other purpose.

# Appearance

Levi is a fairly tall and muscular alien, with dark blue skin that is edged with a bright, turqouise skin tone. His hair is the same turquoise coloring. His face, chest, and palms are light colored, and he has some starry-like markings on his skin. He has aural fins, antennae protruding from his forehead, and a prehensile tail.

Levi is mainly mentioned in a submissive kneel and crawls both in the club and on the ship.

Levi's cock is extremely large and similar to an equine's, with a flat top, as well as a couple of thick knots at the base and midway on the shaft. The tip is predominantly a rose color, while the base is a pale gray.

# Personality

Extremely anxious and submissive since working at The Silky Blindfold. He is helpful to you as the player when you arrive at the club to save him.

If you are also working as a slave for the club, it is possible for him to take control and have intercourse with you unprompted.

# Story

Upon reaching the Second Level of Akra, you will encounter a woman of an unknown alien species looking for her son. After encountering Levi at The Silky Blindfold (illustrious and dark sex club), you learn that he offerred himself as a sex slave in order to pay for his mother's medical debt.

You can free him from the club, but the choice as to whether keep him or return him to his mother is up to you as the player.

# Spicy Scenes

- Sex Slave Route: If you take either Nikaolus' route to enter the Silky Blindfold, you can chose to enter either as slave or a partner. Entering as a slave puts you on the same level as Levi, and you will be made to service patrons together, or, he will be instructed to mount you (playing as a Vers, and likely a Sub). On another occasion, such as entering a room to sleep, he will find you and mount you because "he cannont help himself".
- Sex Partner Route: When you first arrive at TSB, you will talk to Levi, but you cannot do so without being serviced. You will be topped by Levi while being watched by other patrons.

# How to romance him?
