Version 0.45.3

NEW CONTENT

- You can play with **Riordan and Rylan** in “Use Heal Wounds”. Just one option for now. (there's a lot to do).
- **MC SPRITE!** Against all odds, we have managed to implement the MC sprite in this update for everyone. It has been hard work, and we thought we would have to delay it until the next version, but here it is.
  - Your character will appear naked in the inventory menu. Clothes will be added gradually. For now, we only have the wizard's robe for fit and chubby men.
  - There's a problem with the pubic hair on the balls, it doesn't appear. I'll fix it for the next version.

- **Master X**: new interactions. You need the Magnum dildo and cum from the fridge.
- New Planet: Urukai.
  - To get all the content → Wander Around The Whispering Plains > Wander Around Aethergald > Wander Around The Whispering Plains again > You'll find a mine, talk to Bror > Go to the mines and wander around until you find the beast > Talk To Bror > Wander Around Aethergald one final time and speak to the Shaman.

MINOR CHANGES

- You can change the hour format (24h or 12am/pm) in the prefrences menu.
- Fixed the scene with Arthur if you are wearing a strap-on (Now you can fuck him)

GUESTS CONTENT: TAMAHOKI

(sub bottom)

Date with Katari on Urukai. Requirements:

- Land on Urukai 3 times
- Katari's sex on the beach scene must be done.

(top dom)

I made myself the top dom route of this scene. Romantic route and top bottom route will be added in the next update.

BUG FIXES

- I've found a bug in Katari's beach scene. If you play as dominant bottom, you'll get the wrong path. Replay this scene to fix it.

ART

- Well, the MC sprite!
- New backgrounds and minor characters.

That's all! Next update I'll expand Urukai and you will visit Earth!
