Version 0.47.2

***

Firstly, I would like to apologize for the delay, and secondly for the lack of content from Galiano and Snake, who were the two winners of last month's poll.

When I was writing Galiano's content, I realized it was too ambitious for a single update. When I tried to reduce it, I discarded the idea because I didn't like it, and now I have writer's block. So I focused on other things. There will be content for Galiano in the next updates (and for Snake). I just need to be satisfied with what I want to tell.

***

NEW CONTENT

- **Harmonia > University.**
  - You can wander around now.
  - Krixus: You can do the “jerk off dare” and the “gabriel underwear dare” by wandering around university.
  - You can try to learn the spell “Levitation” in the courtyard, between 2 pm to 8 pm.
  - University Day 7
    - After day 7 is done, you can visit Hareldir and Virgil for extra scenes (depending on your choices).
- **Isaac. Sub bottom** – If you 'helped' Isaac in the infirmary → Go to your room and get a shower to trigger the next scene. Once it's done, you can repeat it in his dialogue screen. Best if you have Horse Dildo or Magnum XXL dildo, handcuffs and ball gag in your inventory.
- **New characters:** Jumba and Wendall. You can hire them on Nova Nexus > The Sactuary > New Life. They appear when you get out.
  - Once they are hired, don't forget to pay them on the Salaries screen. Pregnancy quest is not done yet.
  - Their sprites are not finished, so Jumba appears naked.
- How to activate pregnancy? You need Phoenix in your crew → Talk to Jumba and Wendall > Pregnancy. Talk to Phoenix → Pay the fee, then go to Missions screen (in your ship's Bridge). Refresh the mission list until you find 'Yaerld Uterus'.
  - If you are playing with low respect here's how you can increase your chance of succeed. Beg Rylan and Feraldo to do missions, buy weapons and armor at the Gushop (Remember to go to the Armory to restock them.) You should get a probability of around 60%. More if these soldiers are high level.
  - If pregnancy is available, you will become pregnant when you surrender to the huargos in combat.

    - For now, there are no pregnancy scenes available, apart from the one mentioned above. The system is still in development, and sprites of the MC or crew members with pregnant bellies are not available (we are on it).

MINOR CHANGES

- Now your chastity device grants you 10 max lust points per level, but you earn lust points (based on your level) every hour that passes or every turn in combat.

ART

- Two new characters: Jumba and Wendall

BUG FIXES

- Fixed a bug that prevented Levi's Mother Quest from triggerin in some cases.

That's all! Hope you like it.
