Version 0.48.2

NEW CONTENT

- Now you can ascend to the third level of **Akra**, whatever the consequences.
  - If you follow this path, Egon and Elion will join your crew
  - I recommend you to save your game before you make this decision. An alternative route will be implemeted when you know enough spells in the future.
  - I recommend you to finish the TSB route (described below) before you do this.
- **Galiano** content:
  - Fixed: Nikolaos pays Galiano a visit. This scene is old, but it may not have been triggered in some games.
  - New dialogue: Akra's destiny. Requirements:
    - Galiano must be free (not in jail).
    - Clash of Corps mission finished.
    - You are his bitch or he is your bitch. If you don't have any romance situation with him you won't see the new content.
    - If can't see this dialogue option, check that you do not have any conversations with Galiano, Holoryx, Nikolaos and Phobos left.
  - More Galiano content will be added in the next update.
  - There are different paths depending on the decision you make. If **Garth** is hiding on the pirate ship, an additional quest will be triggered.
  - SPOILER!: If you decide not to destroy Akra, the content ends when you hand Holoryx over to Galiano.
- **All additional rooms on hallways B-1 and C-1 can now be built in Katari's Build Screen**. There's nothing to do with them at the moment. Some of them provide happiness to your crew, increasing their compliance by a total of 11 points.
- Now characters who are pregnant or consume large amounts of semen will see their **belly inflated** in the MC sprite (up to 3 levels).
  - Drinking jars of semen from the fridge inflates your stomach. Each jar contains 100 milliliters, and your belly swells every 2 liters up to 6. It is absorbed over time at a rate of 1 milliliter per minute.
- **You can now fill jars with your cum** if cum playing is active in the lunchroom. When you put these jars in the refrigerator, if your respect with the crew is greater than -10, your crew will prefer to consume your semen instead of food, except for Asmodeo, Feraldo, and Skru'Vaks, who will continue to consume normal food or nothing. Your semen gives more happiness to the crew members who consume it than good quality food.
  - By spying on your crew in your bed > TV > Spy your crew, you can see their opinions about your kind contribution (regardless of your role and respect).
- New interactions with **Master X** if you have him in your room. It is possible to reach 100% corruption, unlocking new options. More to come.
- You can now escape from **The Silky Blindfold Club** on the bottom route. Steps:

    - Meet Levi by using “Wander Around” in the bar area. If you didn't get the mission outside, you'll get it now.
    - Go upstairs and sleep.
    - Use “Wander Around” two more times in the bar.
    - Master X will appear in the bedroom at the end of the scene.
- **New laundry system**. If respect is equal to or less than -40, a new option appears in the dormitories called “Do their laundry.” You can repeat this task every day, which increases the compliance of the entire crew by 1 for that day. There are 4 different random scenes for now (taking into account that you have all the crew members with you).
- **Meta-Human Tier:** Gallery > Characters page has been updated with the missing characters. Arthur and Galiano's missing sprites have also been updated.

MINOR CHANGES

- If you allied yourself with Nikolaos and betrayed Holoryx, it is now easier for the scene where Holoryx attacks your ship to appear when you go to deck A. I recommend you stock up on healing pills.
- If you are wearing a chastity cage you'll see it in the MC sprite.
- New kinks: Belly Inflation (disable it if you don't want your MC's belly to grow) and Pregnancy (even if you are pregnant, you can disable the kink to temporarily stop any attempts at impregnation).
- You can see who has impregnated you, how many days you have been pregnant, and how much semen you have ingested in the Status window on the diary screen. There's no available pregnancy with your crew for now.
- Changed has for have, when using they/them pronouns.

ART

- All the inflated belly's for the MC sprite
- Sammuel's sprite has been updated! Only the front view, his rear is still the same, my artist is still working on it. It's a lot of work because he has different body poses, and he will have two outfits.

I have read your comments and still have some changes to make. Such as an alternative route that does not include Phoenix, or removing Iacchus' chastity cage.

There is a lot to do with Akra, Galiano/Garth, and the new rooms available. So I will focus on this in the next version.

Hope you like it!

BUG FIXES

- When searching for the Xeonians, an error appeared in 3 of the locations.
- Meta-Human. Friendship/desire cheats are now paginated to ensure that all characters are displayed on all devices.

- Fixed Hakkon not leveling up.
- You can no longer masturbate in the Galiano club bathrooms if you are wearing a chastity device.
- The MC did not heal after a combat with an erotic outcome.
- If you handed Hakkon over to Iacchus, his character was not removed from the combat companions screen.
- Fixed some other minor bugs.
