Version 0.53

NEW CONTENT

- **New character: ???** You might come across him wandering the Wishpering Plains on Urukai. There is a new conversation for every location you complete in Urukai. In other words, after talking to Q'lan, use “Wander Around” to meet this character again. Repeat this after completing the stories for “The Fringe Canyons” and “The Scattered Archipelago.”
- Day 8 at **Eldor's University.**
  - After day 5, 7 and 8 you can play the following scenes:
    - Two scenes in the library. One for doing homework for the psychic magic class (day 7), and another scene with Rylan (day 8).
    - Ask Damien at the frat to practice blood magic. Meet him later at the Ossuary.
      - New spell. Blood Magic: Healing. It's not very useful. It heals less than the cost in health points, but it's there for plot reasons.
      - Playing this scene will have consequences for Damien in the future. You can avoid them by not playing the scene. After the winter break (WIP), the scene will no longer be accessible.
- Now **Tarok** can visit you if you sleep 8 hours in your rented room if you are whoring yourself . 40% chance.
- **Urukai** now has a map with interactable buttons.
- This month's poll was a real close call between **Bradley, Alastor, Cicero, and Gravel.** But in the end, **Alastor** won. So I've decided to create a shared scene for all of them set in the reconstruction of Ra'Kash that Alastor is working on. Any role/position can play this scene. Go to Ra'Kash > Alastor > Rebuilding Ra'Kash - Community Center. Unfortunately, I haven't had time to finish everything yet; only the scenes for Bradley and Cicero are complete. I'll finish the rest next week, and they'll likely be added to version 0.53.2 along with the bug fixes.

MINOR CHANGES

- I've added a new option to Thuul's dialogue menu so you can remove the collar. This is a temporary option until the questline is complete, since the way to do it is by paying off your debt.

BUG FIXES

- The number of potions in your inventory wasn't updated in the recipe book when you crafted more.
- Water Sports toogle button was not working properly.

ART

- New Character: ???
- Urukai Map
- New Animation. Blood Magic: Healing.

That's all! My plans remain the same. I'll keep working on Urukai until Urukang shows up. And I'll finish up the WIPs I've left behind on other planets.

Enjoy!

Version 0.52

NEW CONTENT

- You now have a 60% chance of getting pregnant by **Mako**.
- After talking to **Mako** about E'kara, you can go look for her using the “Wander around” option.
- New battle: **Prarr Ma'Shakal**. You'll need your party full... (Please let me know if I made it too hard...) All the sexual outcomes in this battle have been completed (submissive MCs only, since I'm still not sure how to make this monster a bottom, yet...)
- New "kink": Unsolicited. When you disable this, scenes in which you have no say will not trigger.
- New character extra content: **Mike**... Go to work at the Galiano Club > Mike > End shift
- If you're working the streets as a dominant top > Two new scenes if your reputation on Akra is 20 or higher.

MINOR CHANGES

- You can now see the total number of times you've gotten pregnant on the Status screen.

ART

- Prrar Ma'Shakal sprite
- Flowers from Mike will appear in your Captain's Room. Press > Explore > Jar to remove them

For upcoming updates, we will continue working on Urukai until this planet’s Praharma appears. Thank you for your support and patience!

We're looking for artists for backgrounds or character sprites. If you're an artist or know one, please DM me on Discord.

Version 0.51

IMPORTANTE NOTE:

I’ve been receiving some messages from players who play with she/her prons and aren’t seeing them correctly. I think I mentioned this before, but I’ll explain it again: A few updates ago, I had to change the variables used for pronouns. To update this in a game you’ve already started, you’ll need to go to the mirror in the captain's room to change your appearance. Confirm that your pronouns are set correctly and confirm the changes. This will update the variables. If this doesn’t fix the issue, please contact me on Discord, or in the comments section below.

NEW CONTENT

- The following WIPs have been completed:
  - Sex scenes after the fight with Edward in the mud during the Orpheus Festival. Sub scene if you lose, dom scene if you win (top and bottom).
  - Orpheus Festival > Gabriel > All Wip's completed (Stories by the Bonfire and the scene at the end of the night).
  - At Riordan's house. The sex scenes with Rylan after using the healing spell on Riordan > Rylan > Suck Riordan's Dick (neutral, bottom, dom top, and strap-on variations).
- Now we can travel to the Scattered Archipelago from the Urukai main menu after accepting Q'lan's mission. In this section, we'll meet Mako, there isn't much else to do for now.
- Extra Content Character : Rylan. You can now go on a second date with Rylan. Requirements:
  - Have completed the first date.
  - Have killed Arihama and talked to Rylan about it.
  - Have at least 20 friendship and love points with him.
  - You must leave the captain’s room while on Sithyrya between 7 am to 7 pm to trigger it. Once done, you can repeat it in his room while on Sithyrya.

MINOR CHANGES

- Saevel did not appear in the contact list (diary screen > love tab). To add him, go to the fraternity and select “Saevel.”
- Added new Sammuel's sprite to the scene with Sammuel, Arthur, Rylan, and Katari in the dining room when retreaving jars of cum from the fridge (bottom players).

BUG FIXES

- Saevel sprite remained on screen after helping him with potions.
- Options to have sex with Charles as bottom were available for top players.
- Iacchu's Roulette at the Orpheus' Festival could be played more than once.

ART

- New Character: Mako

Version 0.50.2

NEW CONTENT

- Extra character content - Damien. Go to the Orpheus festival and when looking for a dance partner, Damien will be available.

BUG FIXES

- Bradley was reporting the armory's capacity percentage incorrectly. Go to the armory to update it, then talk to Bradley to fix the bug.
- Several minor bugs reported by you.

Thank you so much!

Version 0.50.1

NEW CONTENT

- You can now continue the mission on **Urukai** to help the shamans. After talking to Q'Lan, return to the plains then Fringe Canyons.
  - There are two new battles. One against the shaman Varek and another against Abyssal Gargoyle.
    - If you manage to defeat Varek by hitting him (without using lust), he will give you a weapon that works as unarmed combat.
      - It's normal to find this battle difficult to win. The idea is that you need another skill that can be obtained in the lands of another shaman (still to be done). Still you can defeat him if you have patience and lots of healing pills.
  - Chaman Varek teaches you a new unarmed combat skill called Sha'Korr, which significantly increases your defense for 10 turns.
  - A new scene with Katari can be triggered when exploring the Fringe Canyons
- You can now whore yourself on **Akra**. Go to Dark Alley > Whore Yourself. You can do this regardless of your role. It's a work in progress, so there are few scenes.
  - You'll have to pay a fee to **Galiano** if he's not in prison.
- Now you can end up in **prison**. For now, only available if you whore yourself on Akra. Once every five days police can appear an take you to prison, unless you do something about it. The prison is also a work in progress, so you'll encounter WIPS.
- **Damien** won the poll, but I couldn't finish the content on time. It's about 70% complete. So next week I'll upload a new version with the finished content.

ART

- Chaman Varek.
- Abyssal Gargoyle.

That's all! More next week! Thank you all for your support!

Version 0.49.2

NEW CONTENT

- Isaac. If you kept Holoryx in his cell, Isaac tries to convince him to join the crew. (Go to deck D first if the scene doesn't trigger). Enter a second time and decide whether to accept him into your crew.
  - Holoryx can fight alongside you, except in Akra.
  - After Holoryx joins the crew, speak with Isaac > Quetilans to increase your success rate in the final battle against Paradise. This concludes the storyline with the Quetilans and Holoryx if you chose Nikolaos to rule Akra.
  - You can have sex with Holoryx as submissive bottom. Talk to him > Eggs > Doubt, then go to sleep (it might take several tries).
  - Holoryx can get you pregnant if Prengancy is unlocked. On the third day, go to Jumba and Wendall to give birth.
- If you chose Holoryx over Nikolaos (and Galiano rules the first floor), talk to Holoryx and then Galiano to save Galiano's ass. To be continued...
- Isaac. Sex is now available as dominant (top or bottom/pussy/strap-on), go to your room to trigger the scene. Only available if you had sex with him in the infirmary. Can repeat it on his dialogue screen in the bridge. The sprite is not finished, so it has only one face and no cum layers.
- Now you can change Sammuel's outfit. Go to the bridge > Outfit Upgrade. There are 3 different scenes depending on your role (submissive bottom, dominant bottom, and dominant top).
- Recreation Room. There are two new scenes when entering (you need Rylan, Katari and Hakkon in your crew).
- If Iacchus caged you while playing the wheel of fortune at the festival of Orpheus, you can now go ask him to release you in exchange for something.

MINOR CHANGES

- Meta-Human: Added Urukai Respect to Cheats Menu
- Meta-Human > Gallery. Sammuel sprite's updated.
- If you didn't have Phoenix in your crew, you couldn't do the uterus mission. Now you can find Phoenix at Galiano's club if Phoenix isn't part of your crew. Once you've paid the money, just like in the other route, access the GU mission panel to get the uterus.
- Adapted Sammuel's new images (ass) to the existing scenes.
- Meta-Human. Holoryx was missing from the Gallery.

ART

- Sammuel with his back turned. (3 bodies and 3 different faces).
- Galiano has a new couch when moving to Akra's Second Floor.
- Isaac on all fours. The sprite is not finished.

BUG FIXES

- Several minor bugs fixed from the start of the game.
- Fixed the Alastor weapon and armor construction window.

That's all, guys. I hope to have more content in February. January has been a difficult month. Love you all!

I also wanted to point out that I didn't include in the previous log that there is a new scene with **Keirys** (available only if you are a submissive bottom). After the “stare at his crotch” scene, do it again to see the new scene.

Version 0.48.2

NEW CONTENT

- Now you can ascend to the third level of **Akra**, whatever the consequences.
  - If you follow this path, Egon and Elion will join your crew
  - I recommend you to save your game before you make this decision. An alternative route will be implemeted when you know enough spells in the future.
  - I recommend you to finish the TSB route (described below) before you do this.
- **Galiano** content:
  - Fixed: Nikolaos pays Galiano a visit. This scene is old, but it may not have been triggered in some games.
  - New dialogue: Akra's destiny. Requirements:
    - Galiano must be free (not in jail).
    - Clash of Corps mission finished.
    - You are his bitch or he is your bitch. If you don't have any romance situation with him you won't see the new content.
    - If can't see this dialogue option, check that you do not have any conversations with Galiano, Holoryx, Nikolaos and Phobos left.
  - More Galiano content will be added in the next update.
  - There are different paths depending on the decision you make. If **Garth** is hiding on the pirate ship, an additional quest will be triggered.
  - SPOILER!: If you decide not to destroy Akra, the content ends when you hand Holoryx over to Galiano.
- **All additional rooms on hallways B-1 and C-1 can now be built in Katari's Build Screen**. There's nothing to do with them at the moment. Some of them provide happiness to your crew, increasing their compliance by a total of 11 points.
- Now characters who are pregnant or consume large amounts of semen will see their **belly inflated** in the MC sprite (up to 3 levels).
  - Drinking jars of semen from the fridge inflates your stomach. Each jar contains 100 milliliters, and your belly swells every 2 liters up to 6. It is absorbed over time at a rate of 1 milliliter per minute.
- **You can now fill jars with your cum** if cum playing is active in the lunchroom. When you put these jars in the refrigerator, if your respect with the crew is greater than -10, your crew will prefer to consume your semen instead of food, except for Asmodeo, Feraldo, and Skru'Vaks, who will continue to consume normal food or nothing. Your semen gives more happiness to the crew members who consume it than good quality food.
  - By spying on your crew in your bed > TV > Spy your crew, you can see their opinions about your kind contribution (regardless of your role and respect).
- New interactions with **Master X** if you have him in your room. It is possible to reach 100% corruption, unlocking new options. More to come.
- You can now escape from **The Silky Blindfold Club** on the bottom route. Steps:

    - Meet Levi by using “Wander Around” in the bar area. If you didn't get the mission outside, you'll get it now.
    - Go upstairs and sleep.
    - Use “Wander Around” two more times in the bar.
    - Master X will appear in the bedroom at the end of the scene.
- **New laundry system**. If respect is equal to or less than -40, a new option appears in the dormitories called “Do their laundry.” You can repeat this task every day, which increases the compliance of the entire crew by 1 for that day. There are 4 different random scenes for now (taking into account that you have all the crew members with you).
- **Meta-Human Tier:** Gallery > Characters page has been updated with the missing characters. Arthur and Galiano's missing sprites have also been updated.

MINOR CHANGES

- If you allied yourself with Nikolaos and betrayed Holoryx, it is now easier for the scene where Holoryx attacks your ship to appear when you go to deck A. I recommend you stock up on healing pills.
- If you are wearing a chastity cage you'll see it in the MC sprite.
- New kinks: Belly Inflation (disable it if you don't want your MC's belly to grow) and Pregnancy (even if you are pregnant, you can disable the kink to temporarily stop any attempts at impregnation).
- You can see who has impregnated you, how many days you have been pregnant, and how much semen you have ingested in the Status window on the diary screen. There's no available pregnancy with your crew for now.
- Changed has for have, when using they/them pronouns.

ART

- All the inflated belly's for the MC sprite
- Sammuel's sprite has been updated! Only the front view, his rear is still the same, my artist is still working on it. It's a lot of work because he has different body poses, and he will have two outfits.

I have read your comments and still have some changes to make. Such as an alternative route that does not include Phoenix, or removing Iacchus' chastity cage.

There is a lot to do with Akra, Galiano/Garth, and the new rooms available. So I will focus on this in the next version.

Hope you like it!

BUG FIXES

- When searching for the Xeonians, an error appeared in 3 of the locations.

- Meta-Human. Friendship/desire cheats are now paginated to ensure that all characters are displayed on all devices.
- Fixed Hakkon not leveling up.
- You can no longer masturbate in the Galiano club bathrooms if you are wearing a chastity device.
- The MC did not heal after a combat with an erotic outcome.
- If you handed Hakkon over to Iacchus, his character was not removed from the combat companions screen.
- Fixed some other minor bugs.

Version 0.47.2

***

Firstly, I would like to apologize for the delay, and secondly for the lack of content from Galiano and Snake, who were the two winners of last month's poll.

When I was writing Galiano's content, I realized it was too ambitious for a single update. When I tried to reduce it, I discarded the idea because I didn't like it, and now I have writer's block. So I focused on other things. There will be content for Galiano in the next updates (and for Snake). I just need to be satisfied with what I want to tell.

***

NEW CONTENT

- **Harmonia > University.**
  - You can wander around now.
  - Krixus: You can do the “jerk off dare” and the “gabriel underwear dare” by wandering around university.
  - You can try to learn the spell “Levitation” in the courtyard, between 2 pm to 8 pm.
  - University Day 7
    - After day 7 is done, you can visit Hareldir and Virgil for extra scenes (depending on your choices).
- **Isaac. Sub bottom** – If you 'helped' Isaac in the infirmary → Go to your room and get a shower to trigger the next scene. Once it's done, you can repeat it in his dialogue screen. Best if you have Horse Dildo or Magnum XXL dildo, handcuffs and ball gag in your inventory.
- **New characters:** Jumba and Wendall. You can hire them on Nova Nexus > The Sactuary > New Life. They appear when you get out.
  - Once they are hired, don't forget to pay them on the Salaries screen. Pregnancy quest is not done yet.
  - Their sprites are not finished, so Jumba appears naked.
- How to activate pregnancy? You need Phoenix in your crew → Talk to Jumba and Wendall > Pregnancy. Talk to Phoenix → Pay the fee, then go to Missions screen (in your ship's Bridge). Refresh the mission list until you find 'Yaerld Uterus'.
  - If you are playing with low respect here's how you can increase your chance of succeed. Beg Rylan and Feraldo to do missions, buy weapons and armor at the Gushop (Remember to go to the Armory to restock them.) You should get a probability of around 60%. More if these soldiers are high level.
  - If pregnancy is available, you will become pregnant when you surrender to the huargos in combat.

    - For now, there are no pregnancy scenes available, apart from the one mentioned above. The system is still in development, and sprites of the MC or crew members with pregnant bellies are not available (we are on it).

MINOR CHANGES

- Now your chastity device grants you 10 max lust points per level, but you earn lust points (based on your level) every hour that passes or every turn in combat.

ART

- Two new characters: Jumba and Wendall

BUG FIXES

- Fixed a bug that prevented Levi's Mother Quest from triggerin in some cases.

That's all! Hope you like it.

Version 0.46

NEW CONTENT

- Now you can travel to **Earth**. (Available after Earth conversation with Arthur). Things to do here:
  - Wander around will unlock the following:
    - Audio Recordings. Once you get the garage location, go back to your ship and talk to Katari, every day extra information will be revealed. There are 14 in total.
      - In line with this, there's an easter egg. Will you find it? Hint: Has to do with Chip.
    - **New Character: Terri (Winner of the draw)**. Wander around until you unlock the Nest.
      - I recommend you to wear a weapon if you are not wearing any to get all the scenes.
    - The Nest. Terri will lead you there.
      - Go back to your ship to add Terri to your crew.
    - New Combat: Mutant. Only bottom scenes are finished.
  - New scenes in “Spy on your crew.” after getting Terri (Captain's bedroom > TV). I have updated the images of some icons in “Choose a room” and fixed some bugs. One scene was repeating continuously not allowing others to trigger.
- Master X. Only dom route – You can take him to the TSB Club.
- Huargo Combat on Harmonia – Now you can submit mid combat (only sub-bottom).

MINOR CHANGES

- Now Hakkon can be in your party, except if you are on Akra.
- Only radio-resistant partners and androids can be in your party when you are on Earth.
- Magic Tunic is now visible for every body. If you are aroused your hard dick sticks out of the robe, to prevent this, if you are wearing any top part, your dick becomes flaccid.
- Now you can ride Skru'Vaks even if you are his slave.

GUESTS CONTENT: *TAMAHOKI*

A Suitable Request: Go to Riordan's, the scene triggers automatically if you meet the requirements:

- You need a dick. The scene is written only for players with penises; I will adapt it for players with vaginas later on.
- Need the following characters alive and free: Riordan, Rylan, Alastor, Bradley and Arthur
- Helping Hands done. It's the scene where you help Katari fix the ship.
- Riordan's medicine w/ Arthur scene done.

- Very low respect in your crew.
- General tips if the scene does not trigger: Exhaust all conversations with Riordan, Katari, and Alastor (including all those in the Ra'Kash reconstruction).

BUG FIXES

- Skruvaks' telekinetic shield did not disappear during the Arihama battle if the battle ended while you had it.

MUSIC BY *KAFKA*

- Earth background music – Slow Dancing In Americana

ART BY *OVI-MASTER*

- New Character: Terri
- New Enemy: Mutant

That's all! Hope you like it.
Were you expecting to get pregnant...? It will happen soon.

Version 0.45.3

NEW CONTENT

- You can play with **Riordan and Rylan** in “Use Heal Wounds”. Just one option for now. (there's a lot to do).
- **MC SPRITE!** Against all odds, we have managed to implement the MC sprite in this update for everyone. It has been hard work, and we thought we would have to delay it until the next version, but here it is.
  - Your character will appear naked in the inventory menu. Clothes will be added gradually. For now, we only have the wizard's robe for fit and chubby men.
  - There's a problem with the pubic hair on the balls, it doesn't appear. I'll fix it for the next version.

- **Master X**: new interactions. You need the Magnum dildo and cum from the fridge.
- New Planet: Urukai.
  - To get all the content → Wander Around The Whispering Plains > Wander Around Aethergald > Wander Around The Whispering Plains again > You'll find a mine, talk to Bror > Go to the mines and wander around until you find the beast > Talk To Bror > Wander Around Aethergald one final time and speak to the Shaman.

MINOR CHANGES

- You can change the hour format (24h or 12am/pm) in the prefrences menu.
- Fixed the scene with Arthur if you are wearing a strap-on (Now you can fuck him)

GUESTS CONTENT: TAMAHOKI

(sub bottom)

Date with Katari on Urukai. Requirements:

- Land on Urukai 3 times
- Katari's sex on the beach scene must be done.

(top dom)

I made myself the top dom route of this scene. Romantic route and top bottom route will be added in the next update.

BUG FIXES

- I've found a bug in Katari's beach scene. If you play as dominant bottom, you'll get the wrong path. Replay this scene to fix it.

ART

- Well, the MC sprite!
- New backgrounds and minor characters.

That's all! Next update I'll expand Urukai and you will visit Earth!

Version 0.44

NEW CONTENT

- Day 6 at **university.** You get more content if you saved the vampire (Alexander).
- After classes there are some things you can do:
  - Go back to Virgil's to learn new potions.
  - Visit Riordan to try the healing spell.
  - Talk to Edward at the Peaceful Panda Inn
- New quest on the Notice Board (Eldor): Hunt huargos (repeteable).

MINOR CHANGES

- Now you can add descriptions to your save files or delete them. You can disable this in “Options” if you don't want to write everytime you save your game.
- New 16 potions that you can craft in the cauldron with cum. The process removes the lust penalty and makes them usable for your crewmates.
- New Spell -> Heal Wounds. You can select the target if you have crew members in your party.
- New enemy: Huargo
- New location: Edward's Palace

ART

- Huargo sprite.
- I changed/add a few backgrounds and icons

BUG FIXES

- Temporary ability potions were not working (just strengh)

That's all! Hope you like it!

My artist is still making the sprites of the MC, it's a lot of work because they are 6 new characters (3 men, 3 women) with face and hair variations. It will be finished (at least the male version) in v0.45

Version 0.43

Hello! Version 0.43 is up!

NEW CONTENT

- **Master X** – New interactions:
  - Cage him. You need a chastity cage
  - Make him eat his cum. You need a dog bowl.
- Remade Rylan's first combat sex scenes. Added a new sex scene with him as sub bottom during his intro.
- Remade bottom scenes in Sub-Guh'Nir's combats
- New conversations with **Keirys**:
  - Tell me about your species
  - New quest: “Still roaches in the tunnels”. Available after “Attack on pirates” quest.
  - I will be adding more Keirys content in future updates, and it will be closely linked to the Akra storyline. I recommend that you get along well with him, even if you don't play as bottoms.
- **Arihama's Combat** is finally in the new combat system. I created a speciall screen for this, where you place your front line and rear guard companions. Now all front line companions have a 50% chance of dying if they fall in battle. If you made all the side quests the combat is quite easy. Placing Skru'Vaks in the rear guard will grant a special shield every few turns.
- Winners of the poll: Alastor and Edward:
  - Alastor – sub bottom route: After the handcuffs scene in Ra'Kash, go back and talk to Alastor to start the construction of the whorehouse. This is a first part, more coming.
  - Edward – I've decided to move Edward's extra content to the next update for plot reasons.
- Arthur's Puppy Play (only top route) is now playable to the end, but you'll find one WIP.

MINOR CHANGES

- You can change mc's name in the mirror
- You can hunt Sub-Guh'Nir in the underground even after the “End the Sub-Guh'Nir's” quest, but they are harder to kill.
- Now you can understand sub-guh'nir conversations from the small sub-guh'nirs after you've comunicate with the alpha, but you need to start a new game.
- I've changed Keirys position from the Casino to the VIP zone of the club.
- Reduced the difficulty of the firsts Sub-Guh'Nir's
- New habilities for Skru'Vaks: Flying position, Wave (aoe) and Telekinetic Shield.

- Now Arihama's Scream has audio and animation. The spell for mc will get the new spell only in new games.

ART

- New anims for spells: Telekinetic shield, Bite, Wave and Arihama's scream.
  *My artist is drawing the MC sprites, so we haven't been able to implement any new characters, as this requires a lot of time.

BUG FIXES

- The penis measurement in centimeters had many decimal places.
- Fixed a ton of bugs reported by you.

That's all! Hope you like it!

I still have content to write for these characters: Rylan, Snake, Isaac, and Edward. I haven't forgotten about them. I will try to add it in the next update along with more content for Harmonia University, and if I can, I will revisit Garth and Galiano.

Version 0.42.1

NEW CONTENT

Sub-bottom routes

- Orpheu's Festival: Asmodeo route has been completed. For now only if you are his slave.
- Diego is back. Go to his booth at the Pulse and follow his instructions. Only sub-bottom route.
- Thuul: If you have already had the breeding scene with Thuul and kissed him, you'll get a second one with Zavx.

Dominant routes (top and bottom)

- Now you can redeem the Romantic Dinner Ticket with Edward.
- You can save Levi from the Silky Blindfold Club and finally close the side quest. Talk to Levi if you haven't > When you exit the club the quest will automatically trigger. You can get an additional character (Master X) for your crew. Achievable corruption: 21% (you'll get this later in the game)

MINOR CHANGES

- Now you can explore Asmodeo's Room and inspect his furniture. More objects will appear as you unlock planets.

ART

- New character: Master X.

MUSIC BY KAFKA

- Wonderer. Background music for The Confinement (Nova Nexus)

BUG FIXES

- Fixed a lot of small bugs reported by you.
- Alternative "route" to trigger Holoryx combat. These are the new requirements:
  - Have chosen Nikolaos over Holoryx in the corp mission.
  - Have discovered Harmonia.
  - Location must be Akra.

That's all. Hope you enjoy it!

For the next updates, I will focus on the main quest.

Version 0.41.2

Just a quick note to let you know that I've updated the engine of the game to a newer version of **Ren'Py**. This means improved performance and stability.

VERY IMPORTANT for Android users:
Due to the engine update, you'll need to **uninstall the previous version of the game before installing the new one**. If you skip this step, the game may not install correctly or could crash on launch.

How to uninstall the old version on Android:

- Tap and hold the game icon on your home screen or app drawer.
- Tap **"Uninstall"** from the menu that appears.
- Confirm when prompted.
- Once it's removed, go ahead and install the new APK as usual.

Thank you so much for your support, and enjoy the new version!
If you run into any issues, feel free to message me here on Discord.

HUMAN VERSION

META-HUMAN VERSION with Cheats and Gallery

MEGA-LINK in case you are having trouble with Itch.io. Human version only. I'm uploading meta-human version in the next post.

NEW CONTENT

- **Holoryx** attacks your ship after 30 days if you chose Nikolaos over him. On Akra, get out of the captain's room. If you lose this combat and don't have certain characters in your crew → Game Over. If you win the battle, Holoryx gets a nice cell in your ship.
- Now you can choose **Asmodeo** as your partner in the Orpheu's Festival.

Version 0.40

NEW CONTENT

- New Spell: **Freeze**. Go to the university courtyard to learn it. If Zyron is in Uni, he will learn it too.
- You can practice your first **healing spell** in the library. If you got a detention from Hareldir, you will have to go to his class first.
- New conversations with **Isaac**. Now you can tell him to move to: Captain's Room. Dorms, Quarter 1 or 2 on Deck A (if available).
  - Extra scenes in the lab and the infirmary after all conversations have been exhausted.
- Festival:
  - **Hareldir** mudpit combat – sub-bot/dom-bot/dom-top scenes (dom-top special scene if your dick is tiny).
- **The Silky Blindfold Club**
  - Now it's easier to get into this club. Steps:
    - Talk to Orion (the IA in the streets of the second floor). > Want to have some fun? > The Silky Blindfold club
    - After Nikolaos/Holoryx mission, talk to one of them. Now there's no respect conditions, only role/position. In tiop route, go to the VIP area in the pulse, you will be called by King Slurg for your invitation.
  - There are two routes. Bottom route: you are registered as service. Else: you can visit the club and use all its services as dominant (top or bottom). There are 2 scenes so far, 1 with the new character: Levi, another one if pissing kink is enabled.
- **Gushop** – The Galactic Union has managed to restore all its systems and the store is active! You will be able to buy everything you can buy in the game with galactic credits from one place. The items are unlocked as you progress through the story, you don't have them all from the beginning.
- **Ship Improvements** (Katari) have been updated. You can now build new hallways for your ship. Material requirements are high and each improvement will take a certain amount of days to complete. Hallways do not unlock rooms. Rooms can be crafted once you have expanded your ship. No new rooms are available in this update.
  - You can access C-1 and B-1 hallways through the open doors at the bottom of the hallways or using the elevator.
- **Galactic Union Missions** now is called just **Missions**. There are two tabs: **GU (Galactic Union)** and **GA (Gathering)**. The **Gathering** tab lets you gather all the available items, and you can send your crew to collect them in bulk. But be careful! Your crew now has a new stat called **"Compliance"**. This represents how many times each crew member is willing to follow your orders before needing a break. Each crew member starts with a different Compliance value that is modified with **Respect**—the more Respect they have for you, the higher their Compliance. On the flip side, low Respect means lower

Compliance (and yes, it can even go negative).**How to keep your crew happy and boost Compliance:**

- Increase your **friendship/love** with them**.**
- Pay them their salaries.
- Keep the **lunchroom stocked** with quality food.
- Upgrade your **ship** to add relaxation rooms. (Not yet available)
  - Keep the **bar full** of spirits. (Not yet available)
- Also, if you're a **sub bottom**, you can **do them a favor** in exchange for a temporary **+2 Compliance** value until the next rest. You'll need negative respect for this to work and the submissive bottom role enabled. Go talk to each soldier to beg for they obedience. Available for:
  - Rylan
  - More next week
- Once a crew member runs out of Compliance, **sleep for at least 8 hours** to reset their values. If you make any of the changes listed above, sleep to **recalculate their Compliance**.
- Also, I'm registering the times they fail in case you want to punish them. (Not punishment yet available)
- Since the system changed, you'll need to re-buy chip's roles again at the GUSHOP.
- Tips: GA missions have lower success rates if your crew has low level. Increase your crew levels from the GU tab or fighting in combats with them if they are available.

- **Now your crew requires wages**. Each member of your crew has a different wage demand. You can see it in the “Salaries” tab of the partner screen (icon with 4 heads at the bottom of the screen). Each one will be added according to their story, for example, Katari and Sammuel will not ask for a salary until you have finished the pirates plot (Bradley) which is what they were hired for, or Zyron and Skruvak's will not ask for a salary until they have finished their personal missions. At the beginning of the game you have 11 days to collect the money, after that time, each day that passes without being paid their happiness will be reduced by 1 point, decreasing their compliance. From the tenth day onwards the value of friendship will start to decrease too. On the contrary, if you pay them, happiness and friendship values will grow. But this is a slow harvest, you will have to complete several payments to make a big difference.
- **Now you can provide food for your crew.** Buy the food and place it in the fridge (Lunchroom). Depending on the quality they will get happiness. If no food is placed at all, they will receive a penalty of -5 points to their happiness. The cum jar system has changed, you will find the jars in the fridge to collect, only if cum_playing is enabled. You'll find the fridge empty of cum so first, fill the fridge with food and wait one day. Your crew will fill the fridge with their cum every day (some more than 1 jar per night) as long as there are food in the fridge. If the quality of the food is good, they will leave twice as much. In the future, you'll be able to craft potions with their cum to avoid the lust penalty and increase the potency.
  - Low Quality Food – Grosseries (Akra) or GUSHOP – 0 happines points, avoids the penalty.
  - Medium Quality Food – GUSHOP. Increases happiness by 1 point.
  - Good Quality Food – Tarok (Harmonia) He has a new option called “Shop” Increases happiness by 2 points.

- More quality in the future.

BUG FIXES

- After the third day of class at Eldor University, we caught Damien in Hareldir's class, one of the options during this scene was to go in and blow Hareldir, but mistakenly it was restricted to the dominant bottom role. So probably you didn't see it.
- If you tell Rylan you are a girl it changed your body to a female type body, instead just your prononuns.
- Fixed some minor bugs on the cauldron screen.
- Fixed a mudpit bug when battling against Hareldir.
- If you have Gabriel twice or more in your diary, say hi and goodbye to him at the Peaceful Panda Inn to fix it.

- If Hakim is not in your diary, say hi to him at the Peaceful Pada Inn (before uni) or in his class if uni started.
- Fixed some screen issues in combat UI.
- Bradley wasn't earning experience from combats.

That's all. The real winner of the poll was Asmodeo, but his scene is half done. I will finish it next week and upload a new version with more content.

Hello guys, I messed it up this time. Day 4 at uni got super long and I wasn't able to finish it. So instead of delaying it, you choose if you want to play it half-done right now or wait until next Friday, February 7, when I will release next version 0.37.2. Check all the rooms at the uni and do the rest of the content before going to sleep. I recommend you to have in your inventory 10 cumtastic pills (playing as dom).

  - Repeteable scene everyday with goblins.
  - Drunkard (pissing kink filtered) (Rylan version not available yet)
  - Merchants playing cards (Rylan version not available yet)

You'll have to complete every previous step: Beg for dick (until the option dissapears) > Sleep in your room (spaceship) > Once the scene has finished, wait two days and go visit him again at The Pulse > Beg for attention (this is the new content) > Wear fancy clothes (buy them second floor of Akra if you don't have them) then go back to D-deck of your ship.
