

# Alexander

## Alexander

Property	
Age	Hundreds of years old
Birthplace	Unknown
Occupation	Vampire / Monster Hunter
Recruitable	No (But can become a servant)
Species	Vampire
Dick Size	Fat / "Cold"
Relationship	Open (Dominant / Submissive)
Role	Versatile Switch

“ I can't live knowing that he is a monster, that he will never be free.

## Appearance

A pale, striking vampire with an aura of tragic nobility, driven by centuries of grief and bloodlust.

## Personality

Alexander is a deeply conflicted and tragic figure. He projects an arrogant, predatory demeanor to hide the pain of hunting his former lover for hundreds of years. Despite his terrifying nature, he is surprisingly pliable and can rapidly switch from a cruel dominator to an eager, obedient submissive depending on how you treat him.

# Story

"Alexander is a vampire who has spent centuries hunting down his former lover, Avelan, who was turned into a mindless 'blackblood' vampire. He seeks to kill him to end his misery. You initially meet him as a suspect for the vampire attacks in Eldor, but soon join forces to track Avelan to the mansion of Iacchus the Collector."

## Spicy Scenes

- **The Inn Trap (Submissive):** If you surrender to him in your rented room at the Peaceful Panda Inn, he will dominate you physically and sexually. As his "fat cock keeps going in and out of you," he will drink your blood and declare his desire to lock you in his room forever.
- **The Golden Shower:** During the dominant encounter, Alexander's grip on your throat will loosen and he will kick you onto your back. He will strip and aggressively piss directly into your face, forcing you to open your mouth and drink his urine while mocking you.
- **The Inn Trap (Dominant):** If you assert your dominance over him, he becomes your eager servant. He will use his "wet muscle" (his tongue) to meticulously clean the cum and blood off your crotch and thighs, begging for your approval.
- **The Sacrifice (Tentacle Horror):** While not directly with Alexander, if you choose to save him from Iacchus The Collector, you will be thrown into a sealed obsidian chamber. There, you are endlessly used, stretched, and milked by a massive, multi-tentacled cosmic horror in a brutal, hours-long ordeal.

## How to romance him?

Alexander's dynamic is entirely dependent on how you handle your first encounter and the climax of his questline.

- **Dominant / Master Route:** When he attacks you in the rented room, overpower him. Command him to obey your every word with "*No complaints, just 'Yes, [sir]'*". He will surprisingly enjoy the humiliation, eagerly licking you clean and accepting his place as your "good boy". Later, if you save him from Iacchus, he will kneel, kiss your feet, and refer to you as his Master before vanishing.
- **Submissive Route:** Surrender to his attack. Let him taste your blood and take control of your body. He will aggressively dominate you, treating you as his personal blood-bag and cum-dump, utilizing extreme degradation (like the forced watersports scene) to establish his absolute authority over you.
- **The Ultimate Sacrifice:** During the confrontation at Iacchus's Mansion, Iacchus will claim Alexander as his eternal pet for his collection. To spare Alexander this fate, you must bravely step forward and offer yourself to Iacchus instead, enduring the Collector's

horrific "pet" to secure the vampire's freedom.
