# Appearance

A slender, analytical human scientist who is rarely seen without his medical gear.

# Personality

Arthur views the universe through a strictly clinical and scientific lens. He is deeply fascinated by meta-human genetics and alien biology, often disregarding common social boundaries or morality in pursuit of his research.

# Story

**"Arthur is discovered as a captive in the laboratory of the Pirate Base. Once rescued, he claims the ship's med-bay and lab, dedicating himself to studying the crew's biology and assisting in synthesizing the biological weapon needed to weaken the Warlord."**

# Spicy Scenes

Arthur's scenes revolve entirely around his "Tests" in the Laboratory:

- **The Stretcher:** Arthur can be bound to his own medical stretcher. Leaving him there for two days unlocks unique dialogue, and if crew respect is high, it leads to a sexual scene where he remains bound.
- **Breath-Holding Test:** A clinical oral sex examination.
- **Cum Eating Test:** Bring him 3 Cumtastic Pills to trigger an extreme cum inflation scene.
- **Urine Test:** A watersports scene (if enabled in settings).
- **Elasticity Test:** An intense fisting and stretching examination.
- **TV Spy System:** If Arthur is bound to the stretcher, you can spy on him being double-penetrated by Hakkon, or tag-teamed by Phoenix and Bradley.

# How to romance him?

Arthur's "romance" is entirely based on participating in his research and establishing a clinical BDSM dynamic.

- **Dominant / Master Route:** Keep him strapped to his lab stretcher. He secretly enjoys being used as an experiment himself. You can use a butt plug and massage oil from the Sex Shop to enhance his scenes while he is bound.
  - **Submissive Route:** Volunteer for his basic sex tests as the bottom. Let him measure your elasticity, breath-holding, and cum capacity. Doing so reliably increases his Desire points as he methodically studies your body's limits.
