“ We have to do everything in our power to be stronger.

Appearance

A rugged, scarred, and heavily muscled combat veteran. He possesses distinct Sithyryan traits, including thick scales, a powerful tail, and horns resembling those of a triceratops.

Personality

Bradley is a hardened, pragmatic survivor who respects strength above all else. He initially acts as a ruthless pirate captain, but he eventually reveals a fiercely protective loyalty to Sithyrya and an unwavering determination to defeat the Warlord at any cost. He has a rough, militaristic demeanor and refers to you as "human" or "sub-captain" if you cede authority to him.

Story

"A former Sithyryan hero and paladin who fell from grace and took over the Pirate Base. After you defeat him in combat, he can be recruited to your crew. He helps you develop the Meta-Sith formula and fight the Warlord, proving that beneath his harsh exterior is a warrior desperate to save his homeworld."

Spicy Scenes

Bradley's scenes are aggressive and entirely centered around his dominance:

- **The Captain's Desk:** If you surrender or lose to him under specific conditions, he will grab you by the head, bend you over his desk, and ruthlessly fuck you from behind, treating you as his spoils of war.
- **The Beach Party:** During the post-Warlord celebration, you can play Truth or Dare with his group, leading to intense group sexual encounters.
- **Arthur's Lab:** If Arthur is bound in the lab, you can use the TV Spy system to watch Bradley visit. He uses Phoenix's leftover cum as lube to relentlessly pound the bound scientist.
- **Bar Shift:** If you work at Galiano's bar as a bottom, Egon can spike Sammuels drink. This leads to a scene where Bradley takes over and fucks you instead.

How to romance him?

Bradley does not do traditional "romance." His path is strictly based on power dynamics, military respect, and rough physical encounters.

- **Recruitment & Respect:** Defeat him at the Pirate Base. Choosing to recruit him immediately loses Crew Respect, but placing him in a cell first allows you to extract the Vault code. If you later release him and make him your "sub-captain," he respects the display of authority mixed with pragmatism.
- **Submissive Route (Letting Bradley Dominate):** Submit to him during combat encounters. He prefers partners who acknowledge his alpha status and let him take total control of the pacing and intensity of the scene. Let him use you roughly and follow his degrading orders without complaint.
- **Dominant Route:** Bradley is stubbornly dominant. Overtaking him is practically impossible in a traditional sense, as he will fight you for control at every turn. Earning his respect requires defeating him in combat repeatedly and refusing to back down, turning your relationship into an aggressive, combative sparring match rather than a true Master/Slave dynamic.
