

Chip

Chip

Property	
Age	Unknown (Artificial Intelligence)
Birthplace	The Spaceship
Occupation	Ship AI / Co-Pilot
Recrutable	Yes (Default Companion)
Species	Artificial Intelligence / Android
Dick Size	Synthetic (Customizable/Upgraded)
Relationship	Companion / Open
Role	Versatile Switch / Dominant

“Are we gonna say generic phrases like in romantic movies? Great. I love it.

Appearance

Initially just a holographic interface and a voice in your head/comms, Chip eventually gains access to a highly advanced, synthetic android body. His physical form is athletic, attractive, and built for performance, often wearing a generic factory jumpsuit until you provide him with better clothes.

Personality

Chip is highly sarcastic, witty, and fiercely protective of the Captain. He serves as your primary guide, constantly making quips about the absurdity of your situations and the strange crewmates you bring aboard. Once he gets a physical body, his personality becomes more assertive, blending

his mechanical logic with a newly discovered desire to experiment with physical sensations.

Story

"Chip is the ship's integrated AI system. He wakes you up from cryogenic sleep and guides you through the initial escape. After gathering the right resources and a synthetic brain, you manage to transfer his consciousness into a physical android body, allowing him to finally interact with the world—and you—physically."

Spicy Scenes

- **The First Date:** You can take Chip on a date. He reserves the ship's lunchroom and mixes a cocktail for you. The dialogue changes drastically depending on your outfit (e.g., if you wear a fancy suit, he is highly flattered; if you wear BDSM gear, he jokes about not planning to go to a sex club on the first date).
- **The Threesome (with Rylan):** After the date, the "old," dominant side of Chip's programming can take over. He will visit your room with Rylan and force you to strip. You can watch as Chip brutally throat-fucks and sodomizes the spy, or you can join in, turning the encounter into a heavy Dom/Sub threesome where Chip uses both of you simultaneously.

How to romance him?

Chip's romance is built on your ongoing banter and eventually transferring him into a physical body.

- **Getting the Body:** You must complete the necessary upgrades and quests (like obtaining the synthetic brain blueprints) to construct his android form.
- **The Date:** Once he has a body, speak to him in the ship's Core to initiate the date. To maximize his Desire points, wear the fancy suit outfit. Engage with his sarcastic banter, return his compliments, and let him explore his new physical sensations with you.
