## Appearance

A strikingly handsome Luxurian with distinctive pale skin, white hair, and long fingers with sharp nails. He typically wears an elegant, metallic-colored outfit that resembles lightweight armor but maintains the delicacy of a formal suit.

## Personality

Egon is calm, snarky, and highly observant. Working as the bartender at Galiano's Club has made him street-smart. Despite his gentle exterior, he admits that "traditional sex bores" him; he possesses a deeply masochistic streak, craving physical violence, slaps, and degradation during intercourse. He also suffers from "The Dusk," a fatal neuro-degenerative disease affecting his species.

## Story

**"Egon is the bartender at Galiano's Club. His parents fled the Never-ending War on Luxina when he was just a baby, ending up in the slums of Akra. He becomes one of your most reliable contacts, providing rumors, handling job payouts, and eventually inviting you back to his private condo."**

## Spicy Scenes

- **The Therapy Session:** After absorbing the Warlord's rage, Egon can use his Luxurian psychic powers to temporarily appease your anger. You can aggressively use his mouth to blow off steam, leaving him covered in your mess.
- **The Date & Confession:** You can accompany Egon back to his apartment, where he will cook you stew. It is here he confesses his desire for an open relationship focused on violent, "rapey" sex.
- **Public Use:** You can force Egon to return to his bartending shift with your cum still smeared across his face.

# How to romance him?

Egon seeks an open, romantic relationship combined with intense physical abuse.

- **Building Trust:** Volunteer to help him work shifts at the club. Talk to him frequently.
- **The Condo (Masochistic Route):** Accept his terms when he invites you over. To maximize his Desire points, you must agree to hit him and treat him roughly during sex (provided you only keep the violence in the bedroom so he doesn't show up to work with bruises).
- **Handling the Father:** Egon is completely unaware that you can sneak into the master bedroom of his condo and fuck his father, Elion, while Egon is literally in the next room cooking you a meal.
