Appearance

A highly intimidating figure who runs the Akra underworld. While he appears to be a fearsome alien with unnatural pale skin and modified, elongated fingers with sharp nails, he is actually a human. He underwent extreme cosmetic surgery because, in his own words, "If you want to rule, you can't be human."

Personality

Galiano is a ruthless, cynical, and highly pragmatic mob boss. He controls the lower levels of Akra through extortion and fear, acting as a middleman for the corrupt New Life corporation (who took his parents) to spare himself from their wrath. If you choose to work for him, he demands absolute, degrading obedience and views you entirely as his property to be used by him and his men. However, if you possess the strength to overthrow him, his arrogant facade crumbles, and he surprisingly accepts his new place as an obedient submissive whore.

Story

"**Galiano is the undisputed crime lord of Akra's first floor and the owner of the club where Rylan initially drops you off. He hires you to clear out the Sub-Guh'Nirs in the subway facilities. From there, your relationship branches wildly: you can submit and become his loyal, heavily abused sex-slave, or you can build your own Respect, crush his ego, and claim the Mafia Boss as your personal bitch.**"

Spicy Scenes

Galiano has one of the most extensive and extreme branching paths in the game, entirely dependent on who holds the power:

If Galiano is the Master (Submissive Route):

- **The Jail Trap:** If you end up in the Akra jail, Galiano visits your cell. He pulls his flaccid cock and balls through the energy bars and forces you to blow him in front of the other prisoners.
- **The Couch (Pink Smoke):** He presses his signature cigarette to your lips. The pink smoke is a drug that makes you incredibly horny and compliant. He then aggressively fucks you on his couch while his Cyber-Thug watches and masturbates.
- **The Condominium (Dog & Master):** He takes you to his private condo. He forces you to sleep on the hard floor because "dogs don't deserve the couch." He degrades you further by forcing you to drink his hot piss.
- **The Breastfeeding:** During your stay at his condo, Galiano cradles you like a baby and presses your face to his pierced pectoral muscle, which unnaturally oozes milk for you to drink.
- **Riding in Chastity:** You can ride his thick cock while he keeps you locked in a chastity cage, allowing you only a ruined, painful orgasm while he takes his pleasure.

If You are the Master (Dominant Route):

- **Fucking the Boss:** If you refused to be his whore, gained at least 11 Respect, and completed the "Battle for Power," you can dominate him. You force the mob boss onto his own couch and brutally fuck his ass.
- **Whore Him Out:** Once you have thoroughly broken him (by fucking his ass at least 5 times), you can force him to strip in his office. You then invite his Cyber-Thugs and rival bosses (like Magnus) into the room, forcing Galiano to act as a communal cum-dump for his own gang while you watch.

How to romance him?

There is no traditional romance with Galiano—only a battle for absolute supremacy.

- **Submissive Route (His Bitch):** When he first meets you, he will ask if you want to be his whore. Accept his terms. Always address him as "Sir," never hide the truth from him, and support him unconditionally. Have the *Degradation*, *Humiliation*, and *Bondage* kinks active. Let him use you, beat you, and drug you; embrace the extreme degradation, and he will "reward" you by keeping you as his favored pet in his condo.

- **Dominant Route (Make Him Your Bitch):** Refuse to be his whore when you first meet. Build your Akra Respect to 11 or higher. Complete the "Battle for Power" questline. Once you have enough power, you can confront him and force him into submission. Repeatedly use his body to break his spirit until he willingly lets you whore him out to his own subordinates.
