“ Perfect, we have a visitor.

Appearance

Iacchus is hard to describe, the upper half of his head resembles an amalgam of insects while his lower half looks more human, with a wide jaw that makes him strangely attractive if we ignore the rest. After dropping his robe we can see how a centipede-like tail keeps him suspended in the air. The rest of his body, although more human, is no less grotesque, a mixture of bone and peeled skin. As for his genitals, he presents a large tool similar to that of a horse.

Personality

His personality is not clear, he is not a being that is open to interacting with the protagonist beyond his compelling need to collect creatures.

Story

Iacchus first appears in Kavhar (Sithyrya). He lands in this place by accident and the protagonist is attracted to his domain because of his magic. Iacchus is an interplanar collector in search of exotic creatures. When he meets the protagonist he realizes that he is trapped in this reality and the lack of magic here prevents him from leaving, so he delegates this task to us. His origin is totally unknown, the only thing he tells us is that he does not belong to this universe.

How to unlock him

To unlock this character and his entire event line we will have to meet him before killing Arihama. This is very important because after that there won't be a second chance. To do this we will use the "Wander Around" option in Kavhar (Sithyrya) during the night. Something will pull us and we will have to let it guide us out of the city.

It will send us to look for Essence, a force he needs to return to his plane. However, we will not receive any mission in our diary and we will not be able to give him this essence for the moment.

To learn more about him we must kill Arihama after meeting him and visit the second floor of Akra.

To find him in Akra we must use the "Wander Around" option on the second floor until the scene appears, it is not necessary to be at night. (v0.22)

How to romance him

It is not possible to romance this character. However, we will be able to have some scenes with him.

*After meeting him in Sithyrya we will have several options: **Suck his dck (At his mansion) **Suck my d*ck (At his mansion) **When you return to your ship he will suddenly appear to demand a tribute. Among all the options 3 will lead to different sex scenes: ***Cum shower. Requires being top dominant, cum playing kink activated, and a cumtastic pill in inventory. ***Offer him your cake. Required to be bottom. ***Offer him Sammuel. There is no requirement.*

None of these options have any requirements and are unlocked according to our position/role preferences.
