Role	Dominant Top / Submissive Bottom

“ I don't know if I can resist, captain! You're very sexy and when I am aroused I get violent.

Appearance

A towering, massive four-armed Uruk with a heavily muscled physique, dark hair, and a thick beard. Beneath his mechanic's clothes, he wields a massive, "angry purple" cock.

Personality

Katari has a dual nature. On the surface, he is a friendly, gentle giant who works as your reliable mechanic, loves telling terrible jokes (like asking why Zareen don't eat humans), and has moments of deep philosophical reflection about the universe. However, he openly admits that when he gets aroused—especially when mixed with alcohol—his primal Uruk instincts take over and he becomes highly aggressive, violent, and sadistic. Conversely, if you establish absolute dominance over him, he becomes a fiercely obedient, shivering submissive who desperately seeks your approval.

Story

"You find him working at a mechanics shop in the subway facilities of Akra Leuka. After you bring him 50 piles of scrap to reduce the repair costs, he fixes your ship and joins

your crew as the resident engineer. As you travel the galaxy, you can explore both his gentle, romantic side and his extreme, untamed BDSM kinks."

Spicy Scenes

Katari has some of the most extensive and explicit branching scenes in the game, heavily depending on whether you choose to be his Master or his "slut."

- **The Bedroom Massage (Footjob):** You can invite Katari to your bedroom for a massage. You tease his areolas and chest until he loses control and shoots a jet of cum all over his own torso. Still highly aroused, he pulls out his massive dick, cups your feet together, and forcefully thrusts his cock between them, apologizing because he finds your feet "really erotic."
- **The Best Lube Money Can't Buy (Parts 1, 2, & 3):** An extreme, multi-part BDSM questline where Katari heavily restrains and milks you.
- **Shock Therapy:** A psychological BDSM scene where you blindfold Katari to help him face his fears, physically pulling him down and making him lose his balance to establish control.
- **Workplace Groping:** While he is developing the biological weapon to weaken Arihama, Katari will take advantage of an embrace to reach down and aggressively squeeze your buttocks with his large fingers.
- **Chastity Manager:** Katari can lock you in a chastity cage and manage your keys, denying you release while he continues to get drunk and aroused.

The Sithyrya Beach Encounter (Top & Bottom Branches)

If you take Katari to Gravel's seedy bar in Kavhar (Sithyrya), you can get him heavily drunk on "Desert Breath." The alcohol lowers his inhibitions, leading to an intense encounter on the beach that completely changes depending on your role.

Dominant / Top Route (Breaking the Uruk)

If you assert dominance, you force the massive, four-armed alien to the sand and order him to remain completely still.

- **The Tease:** He struggles like a "caged beast," his entire massive frame trembling with the effort of holding back while his purple cock bobs untouched. You edge him

mercilessly, making tiny circles with your hips that cause him to silently scream and beg for release.

- **The Claiming:** When he begs for you to stop teasing him, you coldly remind him, "*This is what happens when you don't follow instructions.*" You fuck his mouth and body until you break his pride entirely.
- **The Humiliation:** You force him to address you as "Owner." As a final act of dominance, you order him to return to the ship and explicitly explain to the entire crew how much he enjoyed getting fucked by his boss. He meekly replies, "Y-yes, owner..."

Submissive / Bottom Route (The Uruk's Toy)

If you surrender control, Katari's aggressive, violent nature takes over completely.

- **The Brutal Assault:** He throws you to the sand and violently slaps your balls/scrotum until you cry out. When you whimper, he coldly tells you, "*Shut up, I don't want to hear you.*"
- **Extreme Fisting:** He checks your holes, noting they are "*Already open and lubed. Just as I thought.*" He uses his tongue, then his fingers, stretching you wider and wider until he eventually forces his **entire fist** inside of you.
- **The Degradation:** He completely exhausts you. When you threaten to pass out from the intense pain and pleasure, he kicks you in the ribs to force you to stay awake, degrading you by calling you a "*terrible sextoy*" but promising he will find a good use for you. Have I Ever*, and choose him when it is time to pair off or start the orgy.
