• **Stare at His Pecs**: When doing the quest to find the Praharma on Uruk, you will encounter Mako at the Archipelago. After talking through 4 prompts, you unlock this scene. In it, Mako will attempt to peacock by flexing his pecs as you stare at him. From there, he proceeds to strip and touch himself before having you kneel to blow him.

After attempting to receive fellatio, he will use your anus or pussy for breeding. He finds your G/P-spot and gives you immense pleasure, all while orgasming multiple times himself.

How to romance him?
