“ Yes! And I loved every second of it. The fear, the pain, the helplessness. I wanted to experience it all without the real consequences.

Appearance

While he was the mysterious and untouchable "Master X," he possessed reality-altering powers. Now, he is reduced to a naked, degraded slave. He is kept stripped of all dignity, wearing only a metal collar, a leash, a blindfold, and a chastity cage, frequently covered in the bodily fluids of his superiors.

Personality

Master X used to be a sadistic voyeur who owned a brutal club where he forced slaves (like Levi) into torturous sexual scenarios. He discovered a notebook that altered reality and used it to turn an ordinary brothel into a torture dungeon. However, he secretly harbored an extreme masochistic

streak—he used a neural interface VR headset to experience the pain and degradation of his slaves firsthand without facing real consequences. Once stripped of his power, he fully succumbs to his pathetic, submissive nature, embracing his new role as an obedient "dog".

Story

"Master X is the legendary, unseen owner of the club. He used a reality-altering notebook to shape the world to his sick fantasies, forcing his slaves to endure extreme abuse while he experienced their pain through a neural link. When the Captain finally uncovers his true identity and strips him of his power, Master X is reduced to the lowest rank possible—a literal pet dog for the Captain and the crew."

Spicy Scenes

Master X's scenes are strictly focused on extreme abuse, humiliation, and group degradation:

- **The Crew Train:** You parade him on a leash onto the bridge and offer his body to the crew. He is brutally used by Rylan, Arthur, Alastor (who uses his twin cocks), Phoenix, and finally Skruvaks, who fills his bowels with a continuous, pressurized flood of Zareen cum until his stomach visibly distends.
- **The Obsidian Dildo:** You force a massive obsidian dildo into his abused hole and use an attached pump to inject a massive volume of "thick, viscous white" fluid, stretching his guts to their absolute limit.
- **Levi's Revenge:** You reunite him with Levi, his former slave. You declare that Master X is now lower in rank than Levi. You allow Levi to brutally fuck him, his knot keeping them locked together while Master X is forced to endure the ultimate humiliation from his former victim.
- **Return to the Club:** You drag him back to his own club on a leash and leave him on all fours in the middle of the bar zone. The patrons recognize their former boss, pop "cumtatic pills", and form a circle to completely cover him in their massive loads. He is also tormented by a Grikari and a hulking Cenithari.
- **Eating His Own Waste:** You force him to lap up his own cum from the floor or a metal bowl like the dog he is.

How to romance him?

There is no romance with Master X. The dynamic is purely punitive and focused on absolute BDSM domination.

- **Dominant Route (The Only Route):** You must break him completely. Strip him of his notebook and his power. Force him to wear a collar and a chastity cage. Make him crawl on all fours like a dog, address you as "Master," and subject him to the most extreme

group degradation possible as punishment for his past crimes.
