## How to hire him

After finishing the mission "Attack on Pirates" and landing in Sithyrya, you will receive the quest "Hire the best soldiers in Akra". Follow the instructions given in the screen to reach that point.

Summary:

\*Work in the club up to 3 times to hire or reject Feraldo.

\*Talk to Egon

\*Wait a day and talk to Egon again, you can decide whether to hire him or not.

\*\*If when you met him in the alley for the first time in Akra you decided not to replace Sammuel in his task, you will have the option to offer Sammuel as payment for hiring him.

## Spicy Scenes

\*When we meet him in the alley in Akra we can replace Sammuel and keep going until we get tired, the scene changes the more we practice. A special scene is unlocked if we return to the alley after completing Arthur's breath-holding test.

\*When we hire him, if we offered Sammuel, we can trigger the scene when we greet him on the bridge and participate in it. There is only a 10% chance of triggering it so as not to saturate the player. You must talk first with Skru'Vaks ("How are you doing?")

\*If we agree to satisfy him ourselves when we hired him, simply go to the dormitories and talk to him.

# How to romance him

Good luck with that.
